ICTs aid this relationship and promote transparencies so that citizens can place greater trust in the activities of their government. If a government can manage resources more effectively by better understanding the needs of its citizens, it can create a sustainable environment for citizens. Having a national strategy on ICT in government and e-government can significantly reduce government waste, corruption, and inefficiency.u0026#xa0;Businesses, CIOs and CTOs in the public sector interested in meeting sustainability requirements will find this book useful.u0026#xa0
